Education

Seaside, CA

Cal State Monterey Bay

Bachelor of Science in Computer Science

- Concentration: Software Engineering and Networking
- Undergraduate Coursework: 336-Software Engineering, 217-Data Science, 311-Network Administration

Salinas, CA

Hartnell Community College

Associates of Science in Computer Science

Associates of Science in Biology

Technical Experience

Projects

Mind Melt (Aug 2022-Present)

- Founded and managed the art and IT direction for a multimedia production service
- Engineered the platform utilizing **Vite**, **React.js**, **Google Cloud Storage**, and the **Firebase SDK**

Este Cosmos (Apr 2026-May 2026)

- Engineered a **React-based** financial and diagnostic application to automate vehicle telemetry tracking and calculate true "Net Fiscal Position"
- Integrated **Edge Impulse machine learning models** to analyze hardware fill-up data, shifting the driver's mindset from reactive guessing to proactive car maintenance

Additional Experience

Certifications: CCNA, CompTIA Sec+, CompTIA Net+, CompTIA CySA+

Languages: Java, SQL, Python, Bash, JavaScript

Skills: PowerShell Automation, Cisco Switch Configuration, OS Deployment (WIM/Answer Files), Active Directory/GPO, Office 365 Administration, Endpoint Management (MDM/RMM)

Employment Experience

IT Technician

Clinica De Salud (CSVS)

May 2025-Present

- **Orchestrated the 2025 Computer Refresh Program**, successfully deploying 364 workstations with a **100% imaging success rate** while spearheading the strategic migration from **SmartDeploy** to **NinjaOne RMM**.
- **Automated system provisioning** by engineering **PowerShell** and **custom deployment scripts** to execute silent application installations and perform comprehensive **post-imaging cleanup**
- Supported enterprise operations by maintaining **Active Directory** user lifecycles, administering remote systems via **NinjaOne RMM**, and providing **escalated on-site technical interventions** across geographically dispersed locations.

IT & Office Support Specialist

PRO*ACT USA

Dec 2024-May 2025

- Administered over **200 user accounts** utilizing **Active Directory** and **Group Policy** to enforce organizational security standards
- Configured **Office 365 tenant-level services**, implementing **MFA**, data loss prevention, and **mail flow rules**.
- Resolved a critical **SQL**-related disruption affecting customer orders by maintaining the **ProSQL** database and managing **FTP syncs**.

Cybersecurity Specialist

Starphyre Digital Security

Mar 2022-Aug 2024

- Managed and configured security technologies including **firewalls, IDS/IPS, endpoint protection, and Splunk SIEM systems**
- Administered regular **security assessments** and **penetration tests**, reducing security incidents by 40%
- Developed **disaster recovery** and **business continuity plans** to ensure **minimal downtime** during security breaches
